AMPLITUDE · GTM ORCHESTRATION

Customer Engagement Model — End-to-End Flow

Every stage transition in the CEM is a trigger. For each one, this view lists the sub-workflows that need to execute, the assets produced, and the specific pod members responsible. Filter by motion or by role to see only the gates where you're on the hook. Click any row in the overview table to jump to its detail card.

MOTION: Pre-Sales · New Business (8) | Post-Sales · Customer Journey (7) | Renewals (6)

ROLE: SDR | AE | FLM | Partner | SE | VC | TSM | CSA | Deal Desk | Legal | PS Ops | SubCo | FDE | Reset

Gate detail

Full sub-workflow lists, all assets, all owners per stage transition

8 gates · Pre-Sales · New Business

S0 Engagement → S6.5 / 7 Closed Won

S0 → S1

S0 meeting booked + qualification notes logged in SFDC

SUB-WORKFLOWS / TASKS

- ICP validation and outbound outreach (SDR)
- S0 qualification call held
- SDR → AE handoff with context brief
- Calendar invite for S1 discovery confirmed

ASSETS CREATED

- SDR handoff brief
- 3 Whys draft
- Opp record
- S0 qualification notes

PRIMARY OWNER(S)

SDR · AE

S1 → S2

3 Whys documented + Champion identified + FLM validation

SUB-WORKFLOWS / TASKS

- Discovery call held (AE-led)
- Pain, urgency, context validated
- Champion / EB identified and engaged
- MEDDPICC fields initialised in SFDC
- FLM validation of 3 Whys (blocking)

ASSETS CREATED

- 3 Whys document
- Stakeholder map
- Initial MEDDPICC scorecard
- S1 Qualification Notes

PRIMARY OWNER(S)

AE · FLM

FLM owns validation gate

S2 → S3

Full MEDDPICC validated with Champion / EB + FLM sign-off

SUB-WORKFLOWS / TASKS

- Full MEDDPICC validation with Champion / EB
- Budget, decision process, timeline confirmed
- Mutual Action Plan (MAP) initiated (≥ $100K)
- Value Map initiated (≥ $100K)
- Partner (PTR) discovery (if engaged)
- FLM sign-off before advancing to S3

ASSETS CREATED

- Mutual Action Plan (MAP)
- Value Map
- Validated MEDDPICC
- Partner discovery record

PRIMARY OWNER(S)

AE · FLM · Partner

S3 → S4

Evaluation Plan agreed (mutual) + Value Map initiated

SUB-WORKFLOWS / TASKS

- Build Evaluation Plan jointly with customer (AE + SE)
- Technical use-case deep dive (SE-led)
- Custom demo / workshop delivered
- Champion coaching sessions
- BVA / success story delivery
- Update MAP with mutual milestones

ASSETS CREATED

Evaluation Plan | Technical Win Plan | Business Case (draft) | Champion coaching notes | Updated MAP

PRIMARY OWNER(S)

AE | SE | VC

S4 → S5 PS

Technical Win confirmed + Services forecasted + Path to Production complete

SUB-WORKFLOWS / TASKS

- POV / technical use-case testing
- Track success metrics vs. goals
- Path to Production deck delivered
- Security & Legal steps scoped
- AE services forecast; TSM pitch
- Deployment plan drafted (TSM; Phase 1 ≥ $100K, Phase 2 ≥ $50K)

ASSETS CREATED

Technical Win doc | Path to Production deck | Architecture Diagram | Deployment plan (draft) | Services forecast

PRIMARY OWNER(S)

AE | SE | TSM | CSA

S5 → S6 PS

Proposal delivered + Vendor of Choice confirmed

SUB-WORKFLOWS / TASKS

- Post-Sales Overview call held with customer
- Pricing and scope finalised
- Proposal + executive summary drafted
- SOW scoped (for services lands)
- TSM generates Requirements Document v0.1
- Legal / security timelines tracked

ASSETS CREATED

- Proposal + exec summary
- Requirements Document v0.1
- SOW (draft)
- Post-Sales Overview notes

PRIMARY OWNER(S)

AE | TSM | Deal Desk

S6 → S6.5

Redlines resolved + MSA / SOW finalised + EB approved

SUB-WORKFLOWS / TASKS

- Legal review coordinated
- Procurement and finance timeline managed
- SOW scope finalised (TSM Mgr review on custom)
- Partner requirement doc shared (anonymised) if co-delivered
- Commercial buyer formal approval
- Signature process started / DocuSign sent

ASSETS CREATED

- MSA
- Final SOW
- DocuSign envelope
- Internal kickoff plan

PRIMARY OWNER(S)

AE | Legal | TSM

S6.5 → S7 PS

Contract signed & reflected in SFDC — Closed Won

SUB-WORKFLOWS / TASKS

- Booking QA (commercial, legal, tax, data completeness)
- TSM assigned and introduced to customer
- Implementation staffing confirmed
- PS Ops initiates PO process (for sub-co)
- Kickoff details confirmed (AE)
- AE → TSM handoff doc auto-generated

ASSETS CREATED

- Signed contract
- AE → TSM handoff doc
- Kickoff package
- TSM assignment

PRIMARY OWNER(S)

AE | TSM | PS Ops | CSA

7 gates **Post-Sales · Customer Journey** CS1 Transition → CS6 Optimize (then into Renewals)

→ CS1 PS

Closed Won (new land) — internal transition required

SUB-WORKFLOWS / TASKS

- TSM holds internal transition call (TSM, CSA, AE, SE, PSM, sub-co)
- Customer kickoff scheduled
- Pre-read materials + prep requirements sent to customer
- AE intro email drafted; EB / Project Sponsor invited
- Partnership kickoff call held

ASSETS CREATED

- Transition pre-read pack
- Customer kickoff agenda
- Intro email (AE → customer)
- Documented use cases

PRIMARY OWNER(S)

TSM AE SE SubCo CSA

CS1 → CS2 PS

Internal transition + customer partnership kickoff completed

SUB-WORKFLOWS / TASKS

- Engineering Kickoff scheduled (instrumentation walkthrough)
- AI Agents walkthrough training
- Use Case Alignment meetings to finalise KPIs & taxonomy
- Taxonomy working sessions booked

ASSETS CREATED

- Engineering kickoff deck
- Use Case Alignment notes
- Taxonomy design (draft)
- Deployment plan (updated)

PRIMARY OWNER(S)

TSM SubCo CSA

CS2 → CS3 PS

Deployment plan validated + EB signoff on use cases/KPIs

SUB-WORKFLOWS / TASKS

- Customer sends data to Test project, then Production
- SubCo / CSA run Data & Taxonomy QA
- Go-Live Readiness assessment
- Data Governance Workshop delivered
- AI context setup

ASSETS CREATED

PRIMARY OWNER(S)

Deployment plan (validated)

Taxonomy design (final)

Design diagram

Status reports / gates

SubCo CSA TSM FDE

FDE pulled in for complex / non-standard

CS3 → CS4

Production data ingested + Go-Live Data Readiness passed

SUB-WORKFLOWS / TASKS

- Build certified dashboards against deployment plan KPIs
- AI context + agents setup complete
- Foundational training delivered
- Implementation readout with customer
- First Verified Outcome logged

ASSETS CREATED

Certified dashboards

AI context + agents

Training materials

Implementation readout doc

First Verified Outcome (WIP)

PRIMARY OWNER(S)
